NOTE

1. This index covers the first twelve sessions of the Interfraternity Conference, years 1909-20. Future indices may well cover five or ten year periods as convenient breaking points.

Of course the primary purpose of the index is to help readers find topics in the printed minutes. It may, however, also prove of service to those whose file of minutes is not complete, by suggesting topics, studies and available material.

2. In using it, look for the ordinary word used by fraternity men. Many subjects overlap, and it is difficult to draw the line, but cross-references are many. If the ordinary word does not lead to the subject try a related subject.

3. Names of persons are not indexed where mentioned in lists of delegates. For such see the Tables at the end of the index. They are, however, indexed in connection with reports and discussions, not only as a useful summary of a given man's participation in the conference, but also as an aid in organizing the work in future years.

Names of colleges and universities are not indexed each time when mentioned in lists like those of Local Interfraternity Councils, etc. The topic should be looked up. Probably the index is not wholly consistent in this respect as it was made up at different times. To have made it wholly consistent would have involved the labor of doing the whole work a second time.

4. The maker of the index has no illusions as to its perfection. Imperfections of substance and form have crept in in spite of care. Annoying as some of these may be to persons scrupulous in their typography, where they did not impair the index as a finder they were allowed to stand simply to avoid the expense of correction.

If users will be kind enough to mail their discoveries of omissions and errors to the undersigned, their cooperation in making the next index better will be appreciated. All corrections will be saved and collated. Whenever you find an error or have a suggestion just mail a postcard *at the time* to the undersigned.
